ARDAN HARYANTO PUTRA

Information Systems Student | System Analyst | Product Manager | AI Enthusiast

+62 813-9138-1661 | ardanputra405@gmail.com | linkedin.com/in/ardanptrr12 | Yogyakarta, Indonesia

PROFILE

7th-semester Information Systems student with hands-on exposure across the product and systems lifecycle from requirements gathering, process modeling, and data analysis to delivery and stakeholder alignment. Comfortable working with SQL, data analysis, and process automation (BPMN/Camunda), with growing experience applying Machine Learning and GenAI to real product problems. Experienced leading cross-functional and cross-divisional teams in fast-paced, deadline-driven settings.

PROFESSIONAL EXPERIENCE

Machine Learning Engineer Internship *Aug 2026 – Present*

PT. Widya Intelektual Bangsa (Widya Analytic)

- Scraped Google Play Store user reviews as textual data for sentiment analysis, then collaborated with the team to evaluate the results and translate them into actionable recommendations to improve the recruitment website's product and user experience.
- Researched and benchmarked several LLMs to identify the most optimal model for the project, comparing them on performance, cost, and fit with the use case.
- Built a lightweight RAG-based chatbot integrated with Odoo to retrieve relevant information and answer user queries.

AI Engineer Cohort *Feb 2026 – Jul 2026*

Coding Camp powered by DBS Foundation x Dicoding

- Defined product requirements and feature scope for SkillMap-AI, a tool that extracts structured data from CVs and matches skills against a reference dataset to surface skill gaps.
- Ran end-to-end data preparation (cleaning, preprocessing, feature engineering) to keep the product's core dataset analysis-ready and decisions data-driven.

IT Intern *Dec 2025 – Feb 2026*

PT PLN Persero

- Owned requirements gathering through deployment for a web-based internship management system, working directly with stakeholders to align features with business needs.
- Mapped 1,000+ company assets using SAP and QGIS, structuring raw operational data to support reporting and decision-making.
- Partnered with the IT team to identify system gaps and prioritize process-improvement initiatives.

Co-Head of Business Development *Aug 2025 – Dec 2025*

Candidate College

- Led a 5-person team on product trend and consumer behavior research to inform business strategy.
- Coordinated cross-divisional stakeholders to align priorities and meet delivery deadlines.

Big Data Analyst Intern *Jan 2024 – Feb 2024*

Kimia Farma x Rakamin Academy

- Queried and managed relational databases in MySQL, applying statistical analysis to extract insights for decision-making.
- Built interactive dashboards and reports in Looker Studio to communicate performance metrics to stakeholders.

ORGANIZATIONAL & LEADERSHIP EXPERIENCE

Vice Head, Media, Communication & Information *Mar 2025 – Apr 2026*

Information Systems Student Association (HMSI)

- Set content strategy and managed a 10-person team to improve organizational communication; owned departmental budget, scheduling, and work programs.

Chief Organizer, Blora Education Fair 2025 & FOKS ORCA 2025 *Aug 2024 – Jan 2025*

HMSI / Independent Event

- Led 7–8 divisions and 100+ staff across two large-scale events (1,700+ participants), managing external stakeholder partnerships from planning through post-event evaluation.

Vice Coordinator of Events *Jun 2025 – Aug 2025*

Faculty of Engineering Orientation Program (PKK FTI)

- Designed event concepts and coordinated a 7-person team to ensure smooth execution and stakeholder alignment.

EDUCATION

Bachelor of Information Systems *Aug 2023 – Present*

UPN "Veteran" Yogyakarta | GPA: 3.84 / 4.00

Relevant coursework: Database Management, Business Intelligence, Systems Analysis & Design, Software Engineering, Business Process Management, Project Management, GIS.

ACHIEVEMENTS & CERTIFICATIONS

- 3rd Place, Business Model Canvas Competition — FKBMIK, UPN "Veteran" Jawa Timur (2025)
- Finalist, Logistic National Competition — Universitas Pendidikan Indonesia (UPI) (2026)
- BNSP Certification — Junior Web Developer (2025)

SKILLS

Product & Analysis: Requirements Gathering, User Behavior & Trend Analysis, Roadmap Prioritization, Data-Driven Decision Making, Stakeholder Management, Systems Analysis & Design, Product Development Lifecycle

Technical: SQL/MySQL, Python, Power BI, Looker Studio, Data Preparation & Cleaning, Machine Learning (Scikit-learn, TensorFlow), BPMN/Process Automation (Camunda Modeler), GIS (QGIS), SAP, C++, UML

Design & Media: Canva, Adobe Illustrator

Soft Skills: Leadership, Teamwork, Time Management, Problem Solving, Decision Making, Adaptability, Project Management

Languages: Indonesian (Native), English (Basic)
